Work History

2020-02 - Current

Software Engineer

Kellton, Gurgaon

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability and performance.
- Understanding of middleware Redux-saga in React-native.
- Experience in integrating third party libraries and REST APIs.
- Collaborated with clients to define solution requirements.
- Experience in Backend technology & Web with PHP, JS ans its frameworks.

Projects

HATHWAY
Hathway Cable & Datacom Ltd formerly BITV Cable Networks, is an Indian cable television service operator based in Mumbai. I have build different website features and handled backend using PHP and JavaScript.

SEND MEMMOGRAM
Mobile Application Send Mammogram is innovative digital healthcare technology empowering women to request prior mammograms for comparison, before breast cancer screening appointments, anytime and anywhere. In this project I was a part of front-end team (React Native) and I took complete responsibility of delivering both android and iOS and got the client appreciation as well.

Education

2012-08 - 2016-12

B.Tech: Electrical Engineering

B.K Birla Institute of Engineering & Technology - Pilani
